8th Grade Game

By: Mickey

On October 20th, 2018, the 8th grade football players of Louisville Middle School played their final game as Little Leopards. It was the annual Blue vs White game which was played every year between the first and fourth place teams against the second and third place teams. So the game was the Bears (1st) and the Lions (4th) against the Colts (2nd) and the Browns (3rd). The Bears and Lions chose to wear White that night while the Colts and Browns put on Blue.

It was the first fall weekend and it was cold and windy. The stadium was filled on the home side and the lights were on as the clock on the scoreboard reached 5:45pm. The teams ran out

know each other before the actual warm ups. When the

of their respective locker rooms and the rain started to come down. The players broke through the banner for the last time as Little Leopards, 4 years of hard work was put to the test during the biggest game of their young careers. The rain did not stop all night and most of the crowd cleared out at halftime. A injured player on Team White's sideline was trying to get out to his team's huddle during a timeout but fell on his crutches.

In the end, the Blue Team came out on top 14-6. J., J., J., and K. carried the Blue Team to the win. After the game, both teams ended up in the home locker room. They ate pizza, and reminisce about their past games and rivalries. As the lights were turned off, a new chapter began in every 8th graders football career.

time came everybody went out onto the field and into

Choral Connections

By: Dale

On Monday November 5 2018 a group of young women by the ages of 11,12,13, and 14 where all seen heading from louisville middle school to the high school. The group of girls were heading towards the high school to have a meeting for a club by the name of 'choral connections'. This club if for female and male to attend to females go on monday and males go on wednesday. As the students arrive at the highschool they set their bags down and took their seats speaking to each other before the club starts. The club ended at 3:30 so they didn't have a lot of time to do really big songs or warm ups. The girls from middle school where also mixed in with the high school choir students all from different grades same as the middle schoolers. After they introduced themselves they started to talk about what the club was and met/get to

warm ups were done and everyone got to know each other it was almost time to leave so they got a drink and a cookie then headed out the doors waiting for their ride. It took almost 5 minutes for everyone's ride to come but everyone got home safely and had a days worth of fun. Many of the girls were eager to return to the club next Monday to have the same feeling as they did last Monday.

The Brunswick
Competition
By: Goofy

On October 20, 2018 the Louisville High School Marching Band traveled the hour ride to Brunswick for a competition. There they would get a rating on how good they performed and they could qualify for State Finals.

While at Brunswick the band members had to practice in the cold until it was performance time. The students then had to walk over to the stadium in complete silence and then wait there until it was their time to perform. When the

their positions to wait even more.

“Louisville High School Marching Band you may now take the field for your warm up.” the announcer said after a while. Then the band did the opening to their performance titled AFRICA! Then onto the show. The band looked and sound amazing even though it had been a while since their last showing because the Sandusky competition had been cancelled by the cause of a storm.

In the end, after waiting through rain, hail, and snow, the band had gotten a superior rating or a 1 overall. That means that the band had qualified for State Finals again!

They still truly are the Pride of Louisville.

The Historical
Gettysburg
By: Belle

If you someone that loves history Gettysburg is for you, the historical value in this city is amazing, it's a great place to learn about history and other major events that changed the way things were forever. During the month of October Louisville Middle School got the opportunity to go to D.C and make a stop at Gettysburg. During our time at Gettysburg we got to see what type of weapons were used on either side of the civil war. We also got to see the amazing architecture that was used back then, this was something very unique because they obviously cared about keeping the historical value in these buildings. One of the coolest things was seeing a hotel where the sixteenth president Abraham Lincoln once stayed. We also got to see the grounds where the men fought in the civil war. Another thing you can see in Gettysburg are monuments for civil war heroes and this trip certainly will not be forgotten.

8th Grade Band Night

By: Mulan

On October 5, 2018 our school had an 8th grade band night where we go and play with the high school band at the Friday Louisville football game to give the 8th grade the marching band experience. What we did was we reported to the Louisville High School Band Room and started warming up with our scales and then we went outside to march with the High School Band. When we got to the football field we took our seats at the band stands and waited for the game to start but before the game was about to start the high school band played the national anthem. Then they paired up with us and we would play songs throughout the game and then when the game ended we went back to the high school to have a band party. At the party we had drinks, food and even line dancing it was a lot of fun but then everyone had to go home but overall it was a great night and it really

gave us the marching band experience.

Fortnite tournaments

By: Jasmine

Fortnite just got a big update where they are having tournaments these tournaments are for the really good players in Fortnite there are solo tournaments and Fortnite Friday were a squad of four people are fighting each other. You earn these points by getting kills if you get 3 kills you get 1 point four 5 kills you get another point when you get seven kills you get another point. You also you get points for outliving people you get 1 point for placing 10th 1 point for placing 3rd and 1 point for winning. This is the placement of one SoldzMrCow. He got the pin with 23 kills 3 wins and 3 places in 3rd he did pretty good. The Fortnite solo tournament gives you this very special badge. To earn this badge you have to get twenty points
